Page 9, line 25, please delete "The memory 118 typically has a size of
32^{1?}/₂?x16."

In the Claims

Please rewrite claim 1 as follows:

1. (Amended) A digital motion picture recorder, comprising:
- a housing sized to be portable for use by an individual;
 - a motion picture camera mounted in the housing, and providing a broadcast quality motion video signal as an output;
 - means, mounted in the housing, for converting the broadcast quality motion video signal into a sequence of digital still images; [and]
 - a digital, computer-readable and writable random-access medium mounted in the housing and connected to receive and store the sequence of digital still images in a computer-readable file format; and
 - means for reading at least a portion of the sequence of digital still images to generate a broadcast quality motion video signal therefrom.
